A dream which Franche-Comté brings to life by creating family fishing breaks just for you! During a stay lasting a weekend or a week, bring along your happy clan for a welcome spot of fishing and fun accompanied by waterside picnics. Grab your fishing rods and your bait, pull on your boots and get into the boat.

THE SAÔNE: A FISHERMAN'S PARADISE

This river offers particularly impressive fishing grounds along the upper part of its course, where it is known as the Petite Saône.

Almost 30 species can be found here, in the shallows, along the peaceful riverbanks and in the backwaters, including carp, pike, pike-perch, perch and eels. This rich diversity is the result of a well preserved ecosystem earning it the status of category 2 river. Here, it is still possible to cast your line into one of the many tributaries and enjoy the quiet surroundings as you admire the hundreds of waterfowl living along its banks.
